### ii. Executive Summary

[24 CFR Part 903.7 9 (r)]

At PHA option, provide a brief overview of the information in the Annual Plan

This same Plan provides a new consolidated process that provides a framework for local accountability and an easily identifiable source by which public housing residents, participants in

the tenant-based assistance program, and other members of the public may locate basic PHA policies, rules and requirements concerning its operations, program and services.

The Municipality of Vega Alta has established the Section 8 Office to administer the Housing Choice Voucher Program, as well as other tenant-based (Section 8) subsidized housing programs in order to assist financially disadvantaged families in meeting their housing needs, mainly decent, safe and sanitary housing as well as to their health and well-being. There are two major philosophy components in the tenant-based subsidized housing program:

1. To give extremely low-income and low-income families the opportunity of choice and mobility in selecting where they chose to live;
2. Maintain the essential elements of a private relationship between the tenant and the landlord on matters other than rent.

As a result of this philosophy the Housing Choice Voucher Program is tenant-based and does not tie the participant to any particular housing unit.

This Municipality also administers various subsidized housing programs geared towards certain sectors of the population in general to afford them the same opportunities as other extremely low-income and low-income families within the general population. The following programs are administered by the Municipality of Vega Alta:

1. Family Self Sufficiency- a program whereby strategies are developed to coordinate the use of housing assistance under the auspices of the Housing Choice Voucher Program (Section 8) with public and private resources. Hence, enabling extremely low-income and low-income families, who are eligible to receive said assistance to achieve economic independence, and self-sufficiency.
2. HOPWA Program- The Municipality of Vega Alta aware of the needs of the families that are infected with the HIV virus and have very limited economic resources with which to combat this disease has joined a consortium with the Municipality of San Juan to secure the funding necessary to provide safe, decent and sanitary housing for eligible families. The Municipality of San Juan is the lead PHA of this same consortium.

The purpose of the Municipal program is to assist the families during financial distress and gradually reduce the amount disbursed by the program in an efficient manner, while at the same time motivating these same families and break the vicious cycle in which they find themselves in.

Furthermore, there is an undeniable need for low-income housing within the Municipality of Vega Alta as evidence by the waiting list as well as the 1990 U.S. Census of Population. There also exists a need for quality housing units available for program participants but there is not an abundance of affordable housing for low-income families within this same Municipality. Conscious of this, our Municipality has established realistic and attainable goals, thus, giving particular thought has been given to the number of families which can be expected to need and want better housing. By setting attainable goals, the Municipality intends to become a facilitator for those in need and for those who have available units by coming together in a manner beneficial to all principals. This is in direct relation to both the major commitments and priorities of the U.S. Department of Housing and Urban Development (HUD). The Municipality of Vega Alta is a tenant-based (Section 8) only PHA.

This same Plan for the Municipality of Vega Alta as presented herein furthers HUD's statutory goal of merging the Certificate and Voucher Program, respectively, in accordance with

the Quality Housing and Work Responsibility Act of 1998, 24 CFR 903, Section 545, whereby, the Municipality has established a unified vision of community actions. This same Plan will permit Vega Alta a chance to shape the various programs presented herein into effective, viable, and coordinated strategies, involving citizen participation.
